NASDAQ:HMST

Important Disclosures

Forward-Looking Statements

In accordance with the Private Securities Litigation Reform Act of 1995, we caution you that we may make forward-looking statements about our industry, our future financial performance and business activity in this presentation that are subject to many risks and uncertainties. These forward-looking statements are based on our management's and other experts' current expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts, as well as a number of assumptions concerning future events. These statements are subject to risks, uncertainties, assumptions and other important factors set forth in our SEC filings, including but not limited to our 2012 Annual Report on Form 10-K and our various Quarterly Reports on Form 10-Q. Many of these factors are beyond our control. Such factors could cause actual results to differ materially from the results discussed or implied in the forward-looking statements. For instance, our ability to expand our banking operations geographically and across market sectors, grow our franchise and capitalize on market opportunities may be limited due to future risks and uncertainties. Actual results may fall materially short of our expectations and projections, and we may change our plans or take additional actions that differ in material ways from our current intentions. Accordingly, we can give no assurance of future performance, and you should not rely unduly on forward-looking statements. All forward looking statements are based on information available to the Company as of the date hereof, and we do not undertake to update or revise any forward looking statements, for any reason.

Basis of Presentation of Financial Data

Retail / Purchase Focus

- Advantages of retail channel:
 - Since 2007, retail originators' market share has increased from 37% to 60% ⁽¹⁾
 - Better credit performance; lower compliance risk
 - HomeStreet operates without credit or pricing overlays necessary for brokers and correspondents
- HomeStreet has consistently produced higher volumes of purchase loans than the industry
- HomeStreet was the #2 lender by market share for purchase mortgages in the Pacific Northwest in the first quarter of 2013 ⁽²⁾
- HomeStreet's market share should rise with declining refinance volume and strengthening housing markets

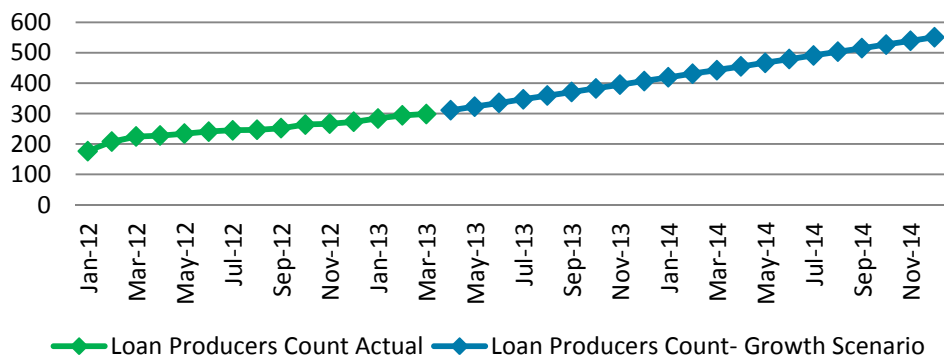

Purchase Composition

Mortgage Origination Cost Structure / Trend

- Highly scalable mortgage origination platform

- Loan origination costs by category:

- Variable Costs: loan officer production commissions, loan officer unit incentives, manager incentives

- Commission rates tiered to volume

- Semi-Variable Costs: production staff base salaries, fulfillment and underwriting

- In transition from refi to purchase market, low-producing loan officers will be managed or self-select out, to control fixed costs

- Fulfillment personnel managed through a volume-based staffing model

- Fixed Costs: occupancy, IT, permanent management cost

- Production offices primarily located in major metropolitan areas; expected to be profitable through the cycle

Composition of Costs
