Forward-Looking Statements

This presentation includes forward-looking statements, as that term is defined for purposes of applicable securities laws, about our industry, our future financial performance, and our business plans and expectations. These statements are, in essence, attempts to anticipate or forecast future events, and thus subject to many risks and uncertainties. These forward-looking statements are based on our management's current expectations, beliefs, projections, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts, as well as a number of assumptions concerning future events. Forward-looking statements in this release include, among other matters, statements regarding our business plans and strategies (including our expansion strategies) and the expected effects of those initiatives, general economic trends (particularly those that affect mortgage origination and refinance activity) and growth scenarios and performance targets. Readers should note, however, that all statements in this presentation other than assertions of historical fact are forward-looking in nature. These statements are subject to risks, uncertainties, assumptions and other important factors set forth in our SEC filings, including but not limited to our Annual Report on Form 10-K for the year ended December 31, 2016 and our quarterly report on Form 10-Q for the quarter ended March 31, 2017, which we filed on May 5, 2017. Many of these factors and events that affect the volatility in our stock price and shareholders' response to those events and factors are beyond our control. Such factors could cause actual results to differ materially from the results discussed or implied in the forward-looking statements. These limitations and risks include without limitation changes in general political and economic conditions that impact our markets and our business, actions by the Federal Reserve Board and financial market conditions that affect monetary and fiscal policy, regulatory and legislative findings or actions that may increase capital requirements or otherwise constrain our ability to do business, including restrictions that could be imposed by our regulators on certain aspects of our operations or on our growth initiatives and acquisition activities, risks related to our ability to realize the expected value of our recent acquisitions, continue to expand our banking operations geographically and across market sectors, grow our franchise and capitalize on market opportunities, manage our growth efforts cost-effectively and attain the desired operational and financial outcomes, manage the losses inherent in our loan portfolio, and make accurate estimates of the value of our non-cash assets and liabilities, maintain electronic and physical security of customer data, respond to restrictive and complex regulatory environment, and attract and retain key personnel. In addition, the ratio of loan lock to closed loan volume may fluctuate due to challenges our customers may face in meeting current underwriting standards, a change in interest rates, an increase in competition for such loans, changes in general economic conditions, including housing prices and inventory levels, the job market, consumer confidence and spending habits either nationally or in the regional and local market areas in which the Company does business, and legislative or regulatory actions or reform that may affect our business or the banking or mortgage industries more generally. Actual results may fall materially short of our expectations and projections, and we may change our plans or take additional actions that differ in material ways from our current intentions. Accordingly, we can give no assurance of future performance, and you should not rely unduly on forward-looking statements. All forward-looking statements are based on information available to the Company as of the date hereof, and we do not undertake to update or revise any forward-looking statements, for any reason.

Basis of Presentation of Financial Data

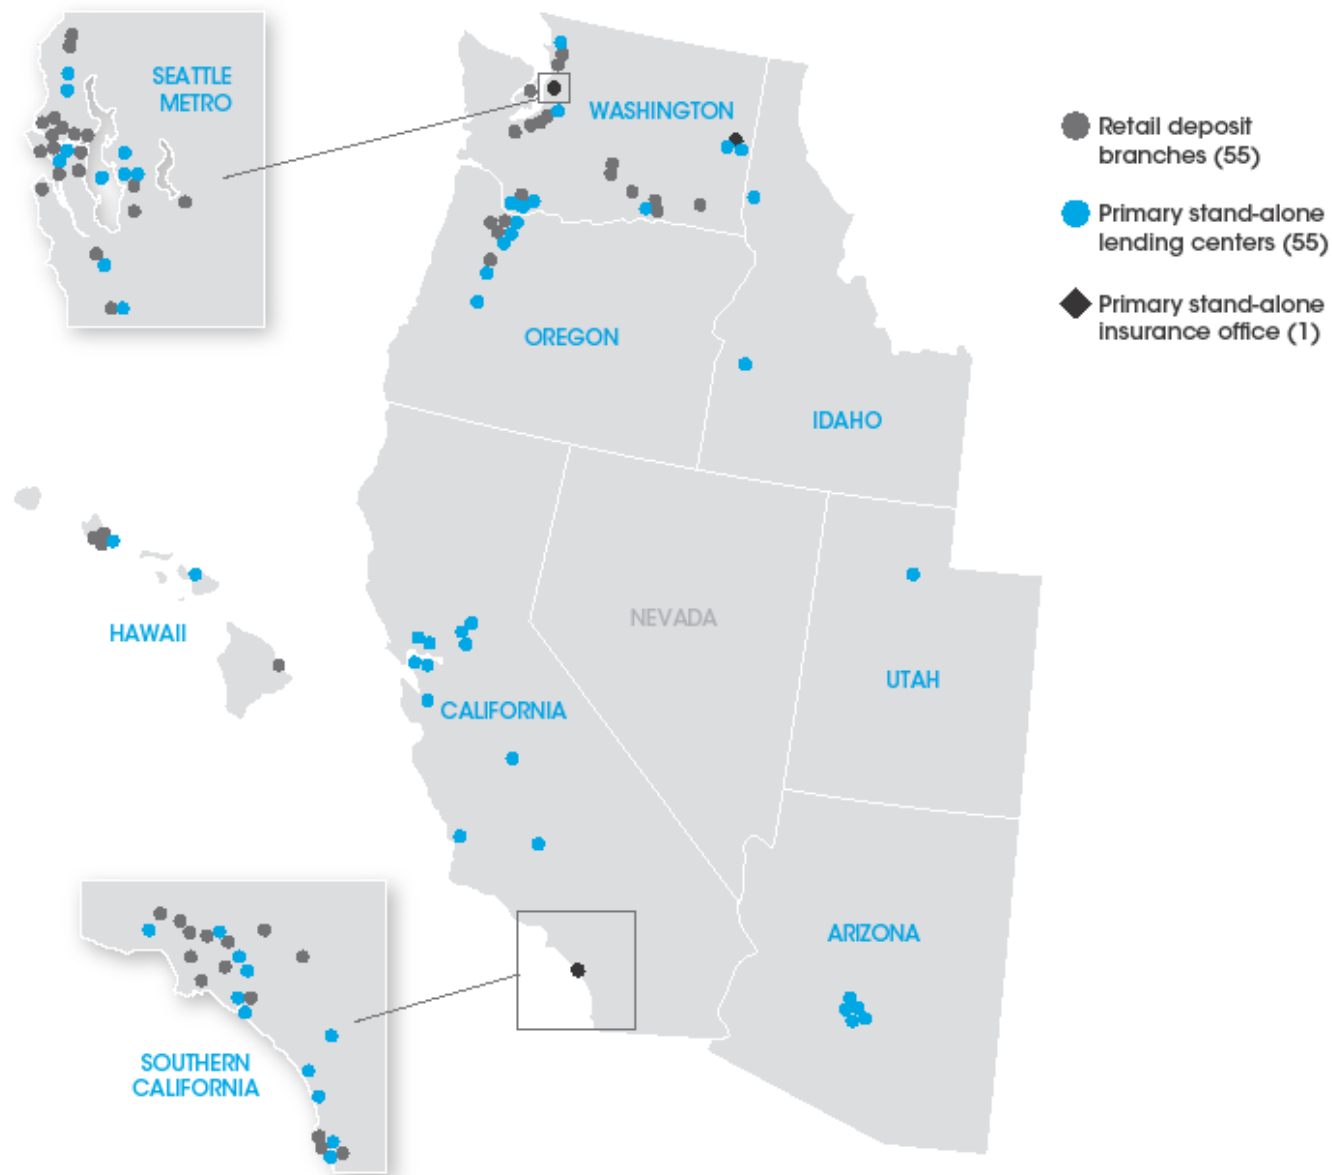

Unless noted otherwise in this presentation, all reported financial data is being presented as of the period ending March 31, 2017, and is unaudited, although certain information related to the year ended December 31, 2016, has been derived from our audited financial statements. All financial data should be read in conjunction with the notes in our consolidated financial statements.
